Hi Maria,

I hope you are well.

I have heard back from InVentry, and they have sent the below instructions:

In the InVentry Management Console (accessible from office PC), the setting is in the following area;

Settings>Visitor Options>Visitor data collection>Don't show visitor photos (toggle to 'on').

I'm also happy to raise a ticket for the school so that our Support Team can contact and guide/remote on to do the setting.

It's not the most obvious title, so I am investigating if this setting hides visitor photos from anywhere else (I don't think it does) before renaming it to something more obvious. This will leave name only showing with a generic silhouette instead of the photo. Another option could be to turn off the sign out button and force all visitors to scan their pass to sign out instead, but this does sometimes cause some confusion for users.

In terms of publishing information, are you referring to guides/settings? If so, these are all on our online helpdesk accessible by customers.

I hope that helps,

Many thanks,
Tammy

You have my permission.

We did not purchase the scanner, unfortunately. It was agreed just before I started.

Thank you,
Maria

Subject: Re: Fw: Data Protection Feedback

Hi Maria,

Data Protection Education is your DPO and I am one of the school's consultants. Yes it can be, I spoke to one of their support staff when I was at Bett last month and asked that question. I can probably find out how to do it by speaking to someone there, but usually they want to know which school I am asking on behalf of, so would need your permission to let them know that? Otherwise, contact Inventory support for advice as part of your agreement with them? Other electronic sign-in companies that I have spoken to have this information readily available on their sites, but can't seem to find it on the Inventory one. You should be able to set it so that when the person starts typing it will pick up their name, or they should be able to scan the QR code on their badge to sign out? It sounds as though it was left at the default setting.

You should also check the photo retention for when the photo was taken for the badge? Although visitor information should be kept for six years, that does not include the photo as it is not deemed necessary data i.e. it was just for the badge.

I hope that helps,

Many thanks,
Tammy

Hello Tammy,

I am receiving resistance regarding turning off the visitor names on the inventory sign in system. Apparently it cannot be done. Can you offer any further guidance?

Are you our DPO or does that responsibility lie with someone else?

Details below.

Thank you for your help.

Kind regards,

Subject: RE: Data Protection Feedback

Hi Maria and Adele,

I have spoken to Liz de Bell at Binfield school. She is the DPO for Binfield, Whitegrove and a few other schools.

She said that as visitors read our privacy police when they sign in, that shows how we use their information.

There is no way to turn off visitors details when they sign out.

I am also looking on the Data Protection Education website that you linked us to, but I can't see in there anywhere that it says this needs to be turned off. I know for paper sign in, we shouldn't let anyone see who is signed in, which is why when Data Protection changed to GDPR we used to have a carbon sign in sheet so no one could see who had signed in previously.

Maria, Liz said she is happy to chat to you about it if you'd like her to, she spends her time between Whitegrove and Binfield School, and is doing a DP Audit at Binfield on Monday.

I hope that all makes sense?

See you both tomorrow.

Kindest

Victoria

Subject: Data Protection Feedback

Hello everyone,

I hope you all had a lovely bank holiday weekend.

We had a data protection walkaround on Friday last week. Here are the findings. We will be reviewing this again in September so we need to action all of these items as soon as possible.

If you have any questions, please do not hesitate to ask.

1. All staff need to complete the data protection training on DPO. Logins have been sent out. [Course here](#). You will be expected to do a refresher on an annual basis. If you have not received a login just let me know. All to action.
2. Sign in system – all visitors can see first and last names when signing out. This needs to be disabled. [Best practice](#). AV/VH to action.
3. Pigeon holes contained personal information on pupils and staff. Forms to be made electronic. Please do not leave personal information in the pigeon holes. MM to action forms. All to be mindful.
4. All rooms need locking when not occupied both during the day and overnight: admin, SLT etc. This is particularly important for any offices containing special category data which is subject to more stringent legal protection. [Guidance](#). All to action. Let me know if there are missing keys.
5. All cupboards and drawers need locking when not in active use. All to action.
6. Allergy information with photographs should not be on display on walls. If needed, these should be in a folder and locked away when not in use. All to action.
7. Lists containing full names, medical information, SEND information should not be on walls. All to action.
8. Pin codes for the copier should be unique to each member of staff. MM to action.
9. Auto lock timer to be put on all computers. Please lock when not in use. (windows button and 'L' key) MM to action.
10. Clear desk policy for all staff. [Guidance](#) All to action.

Kind regards,

Mrs. M. MacDonald | School Business Manager
