Hi all,

Thank you for your time today. It was good to see you again. Please find below the details we discussed:

Adding staff onto the Knowledge Bank. - details of how to add staff onto the Knowledge Bank can be found here: <https://dataprotection.education/best-practice-library/documents/user-guides/149-how-to-add-users-to-the-knowledge-bank-user-guide>

A reminder that data protection training should be part of the onboarding process.

Register DPE with the ICO: Please find below a link about how to register Data Protection Education as your Data Protection Office with the ICO:

<https://dataprotection.education/best-practice-update/110-make-sure-dpe-is-your-registered-dpo-with-the-ico>

Our contact information should be made available to staff and parents (via your website).

Policies - you have sent me the Data Protection policy which I will look at. Details about privacy notices are here: <https://dataprotection.education/index.php/best-practice-library/best-practice/transparency>

Here is an example of how another school displays their data protection information: [Trowse Primary School - GDPR](#)

Following James' visit here is some useful information for staff:

Computer Locking – Ensure an auto lockout is set for all computers appropriate to the role. Advise that staff are reminded not to rely on the auto lock out feature which may have been set. When there is not a teacher or member of staff in the room, the computer should be locked. A quick way to do this is by pressing the Windows and L key (+ L). Further advice: <https://dataprotection.education/best-practice-library/documents/drip-feeds/19-leave-it-lock-it-computer>

Information about lists and displays is in this infographic and can be distributed to staff:

Photos - the photos and videos best practice library has help and advice: <https://dataprotection.education/index.php/best-practice-library/best-practice/photos-and-video>

I will shortly send an invite through for our next online meeting in October.
