Hi both,

Just to advise you that I have today done the first two data walks for the Spring Partnership Trust. Both heads had some GDPR questions and one is not set up as admin on the Knowledge Bank which I will need to change in order to be able to send them links for information, so just making you aware of that. I do also think, using the Knowledge Bank would have helped them with some of their questions, so

I also thought as I work through, it may be worthwhile offering them demos of the Knowledge Bank, which I can organise for online at a later date? Perhaps for the head and any designated GDPR leads there may be?

As I walk round I do use the Knowledge Bank to upload the information which the schools do have access to so just making you aware of that, although it is everything we would have discussed as we walked around. I was just wondering how/if you would like me to feedback to you? Would you like me to do it as I go for each one, or just a general trust report at the end with the highlights and any major concerns?

I look forward to hearing from you.

Many thanks,

Tammy Buchanan
