Hi Jill,

Thanks for your time today. It was good to see you again. Please find below some of the details we discussed:

Due Diligence: We discussed Victoria's draft VEO email, so I have asked her to finalise it and send it through to you so that you can pass the information onto Joe.

We closed some of the due diligence tickets either because you are happy with the status or the product is no longer being used.

We agreed that I would chase the Steplab due diligence.

We discussed you sending off the due diligence form to future suppliers. The form for that is here: <https://dataprotection.education/best-practice-library/documents/procedures/135-supplier-due-diligence-form>

Here is the type of text that I use in the email that you could modify for yourself:

We are a data protection officer for a number of schools and are trying to complete due diligence with their suppliers directly and updating our database so that our customers can see which suppliers we have completed due diligence with. That way, you would only need to fill in our supplier due diligence form once rather than many times from each of the schools.

We have been asked to contact you on behalf of XXXXX School.

It would be very helpful if you could please complete the attached form and return at your earliest convenience or pass it to the appropriate person in your organisation.

We look forward to hearing from you.

Once you have received a completed form, raise it as a ticket and ask Victoria to do the due diligence.

Additional Training Resources:

Any of our training courses: <https://dataprotection.education/courses-heading/courses>

The NCSC training courses: <https://dataprotection.education/courses-heading/ncsc-cyber-security-training-for-school-staff>

The checklists for Darrick Wood: <https://dataprotection.education/best-practice-library/checklist>

We agreed that it would also help for me to have a visit to do a making the rounds at the school, so will shortly send you an invite for the 21st September. I look forward to seeing you then.

Many thanks,

Tammy Buchanan
Data Protection Consultant
