Hi Lynne,

Thanks for your time today. It was good to see you again. Please find below the details of the meeting and any follow up information discussed:

Making the Rounds - you confirmed that some actions had been put in place following my visit, including the cabinet, clear desk policy and staff training.

Privacy Notice - still in progress, waiting for the head teacher's view. Consider adding third party supplier information to the end of the privacy notices. Further due diligence help and advice can be found here: <https://dataprotection.education/best-practice-update/296-due-diligence-step-by-step>. The Knowledge Bank can be used to record this information and any due diligence.

Governors - it is possible to add the governor's onto the Knowledge Bank platform. Details on what they can view as a governor user (called trustee role) can be found here: <https://dataprotection.education/best-practice-update/358-knowledge-bank-user-types-admin-staff-and-trustee>

If you need help adding them onto the Knowledge Bank, then please feel free to send me the list through. Once added, I would advise that they complete the Introduction to Data Protection Course. This article covers other areas of data protection for governors: <https://dataprotection.education/infosec/312-cyber-responsibilities-for-governors-trustees-in-schools>. The article covers the types of cyber security questions that governors should be asking in relation to school strategy and business continuity (given that so many systems are now in the cloud).

I'm putting a note here to remind us to talk about arranging a demo for the new head teacher the next time we meet. I will shortly send you an invite for our next meeting in October and look forward to seeing you then.

As mentioned, look out for our newsletter, it comes from the email address: kb@dataprotection.education. New articles are now published weekly with updates to the Knowledge Bank and Cyber Security advice.

I hope you are able to take some time off and have a lovely Summer.

Many thanks,

Tammy Buchanan
Data Protection Consultant

BSc(Hons) Computer Science

ITIL 4 Service Management, NCFE Principles of Cyber Security
