Hi Alison,

Great. I also had a thought that this article may help with the medical displays and how the ICO are viewing safeguarding/confidential information. A school was recently reprimanded because a teacher was viewing their email from a safeguarding system and it was connected to the classroom whiteboard and the children and other adults in the class were able to view it:

Generally our guidance is to keep the information in a safe place in the classroom i.e. in a folder in the teacher's drawer with consistency across the school and training that is not passive. This infographic which is linked to in the Making the Rounds feedback, is probably one of the most helpful and practical documents:

I hope that helps,

Many thanks,
Tammy

Hi Tammy

It was lovely to meet you on Thursday.

I have briefly reviewed the feedback, none of which was a surprise. I will work through it, discuss it with SLT and get it into some sort of an action plan.

Hi Alison,

Thank you for your time yesterday and for showing me around your school. I have updated the Making the Rounds on the Knowledge Bank:

<https://dataprotection.education/courses-heading/making-the-rounds-log/item?id=95126>

If you go into view mode there will be some feedback in some of the areas which include links and information that you can send to staff if needed.

I have updated the DPO Feedback section with any additional advisories and changed the status to Action Required. You can then update the Actions Taken section with any changes you are able to make, and we can discuss at our next meeting.

I am putting my booking link below so you can book the next online meeting for the Autumn term. Please use the link below to check my availability which will allow you to book a date and time that is suitable for you:
