Hi Sharon,

Thank you for your time today and for showing me around your schools. I have updated the Making the Rounds on the Knowledge Bank:

Hersham:

<https://dataprotection.education/courses-heading/making-the-rounds-log/item?id=96068>

Staines:

<https://dataprotection.education/courses-heading/making-the-rounds-log/item?id=96111>

If you click on the above links there will be some feedback in some of the areas which include links and information that you can send to staff if needed.

I have updated the DPO Feedback section with any additional advisories and changed the status to Action Required. You can then update the Actions Taken section with any changes you are able to make, and we can discuss at our next meeting.

Here is the additional information I said I would send:

Information for the Governors : <https://dataprotection.education/index.php/best-practice-library/best-practice/governors-and-data>

Cyber Responsibilities for Governors: <https://dataprotection.education/infosec/312-cyber-responsibilities-for-governors-trustees-in-schools>

National Cyber Security Centres advises that governors can answer the following: <https://www.ncsc.gov.uk/information/school-governor-questions>

Head teacher prosecuted for unlawfully obtaining pupil's personal information (used a USB stick): <https://www.forbessolicitors.co.uk/news/44993/former-headteacher-prosecuted-for-unlawfully-obtaining-pupils-personal-information>

It is not just about removing the data but about external devices being allowed to be plugged into your network which creates the risk of a virus/malware. Given so much is online, this puts the school at risk of a cyber attack and as such is a risk to business continuity. There are lots of examples in our news articles of schools being shut down for weeks because of a cyber attack on the school. If the server is damaged either accidentally or intentionally, this is also a cyber attack and as such would need to be treated as so.

I didn't observe any CCTV cameras at all, but forgot to ask specifically if you have CCTV as it did say on the gate at Hersham when I came in?

We also didn't talk about the cleaners and whether they are employed by the school or not - if they are not then of course the risk increases accordingly.

I am putting my booking link below so you can book the next online meeting for the Autumn term. Please use the link below to check my availability which will allow you to book a date and time that is suitable for you:

<https://go.oncehub.com/DPETammyBuchanan>

If you have any questions, please do not hesitate to contact me.

Have a lovely weekend,

Many thanks,

Tammy Buchanan
