Hi Jane,

Thanks for your time today, it was good to speak to you. Please find below the information we discussed:

Data Protection Policy - you advised that this is currently awaiting approval to go onto the website.

Publication Scheme - just to advise that all public authorities, including schools, are required under the Freedom of Information Act to adopt a publication scheme that has been approved by the Information Commissioner. This page gives advice and support about what is needed: <https://dataprotection.education/best-practice-library/best-practice/freedom-of-information>

Training - we discussed that there has not been any data protection training since 2018 and the start of the GDPR into schools. Please find below ways in which training can be done:

Firstly, we need to ensure that all current staff are added onto the Knowledge Bank - please find attached a csv file for you to complete. If you fill this out and then send it back to me, I can bulk add the staff for you. When we have done that I will send you instructions on how to assign courses to staff.

You can put up posters around the school: <https://dataprotection.education/best-practice-library/documents/drip-feeds>

Harry the Hacker/Data breach training poster: <https://dataprotection.education/freebies/harry-the-hacker>

I would advise speaking for a couple of minutes at staff meetings about data protection, please consider using our news pages to help you with information. Recent school related stories:

This article talks about the end of year routines, which is related to reducing the risk of a data breach: <https://dataprotection.education/best-practice-update/368-end-of-term-year-routines-for-schools>

I will shortly send you through the invite for the Making the rounds in person visit in October and look forward to seeing you then.

Have a lovely Summer.

Many thanks,

Tammy Buchanan
