Hi Jo

Thanks for your time today, it was really good to see you. Please find below the information we discussed:

Schools Best Practice Area: <https://dataprotection.education/best-practice-library/best-practice/schools>

Adding Staff onto the Knowledge Bank - a reminder to add any new staff to the Knowledge Bank and assign any training to them. Additional training:

Staff awareness & Training. Consider mentioning data protection at staff briefings to raise awareness. Use the News section of the DPE website for ideas and latest best practice advice. Use our 'drip-feed' posters: [folderDrip Feeds - posters](#)

Free inset day training ideas: <https://dataprotection.education/best-practice-update/387-inset-day-training>
ICO training videos: <https://dataprotection.education/courses-heading/ico-an-introduction-to-data-protection-for-small-businesses-and-sole-traders>

NCSC:

The NCSC also provide free training for school staff:

- [NCSC Cyber Security Training for School Staff](#)
- [NCSC Questions for School Governors](#)

KCSIE Article: this article explains how Cyber Strategy is linked to safeguarding children in school <https://dataprotection.education/best-practice-update/383-kcsie-s-cyber-link>

DPE Keep in the know digest email:

DPE has automated sending key information and updates to you. You should be receiving the latest DPE news via a digest email (Keep in the know! With data protection education). If you have not received an email please let us know so we can check the system for you. Email: dpo@dataprotection.education with the email address you are using. **Please check your junk/spam folder prior to contacting.**

We agreed at the next meeting, we will discuss data retention further.:

The iRMS toolkit provides the relevant time periods for all the different file types:

<https://irms.org.uk/page/SchoolsToolkit>

Government Guidance:

<https://www.gov.uk/guidance/data-protection-in-schools/data-retention>

I had a look through the workshop slides that we run for data retention and it talks about remembering the purpose for processing the data, and any legal or regulatory requirements for retaining it - i.e. there needs to be a legitimate and lawful reason for keeping it.

As mentioned if a cyber attack and subsequent data breach occurs all the data subjects whose data has been stolen/breached would need to be contacted, which if data is kept for many years becomes many thousands of people - this is a reality that we are seeing happening to schools.

Have a look and see if you have a data retention policy, our template is here - <https://dataprotection.education/best-practice-library/best-practice/records-management>

If you have any questions, please do not hesitate to contact me. I will shortly send you an invite for our next meeting and look forward to seeing you then.

Many thanks,

Tammy Buchanan
