Hi both,

Thank you for your time today. It was good to see you both. Please find below details we discussed:

Policies: the current privacy notices and data protection policy have not been updated, Phil to check website**Supplier Due Diligence:** we will continue to work together to ensure the supplier due diligence for the schools and trust are completed. (I have updated your Facebook entries).**KCSIE/Cyber Article:** <https://dataprotection.education/best-practice-update/383-kcsie-s-cyber-link>**Record of Processing:** we discussed how the trust might use the record of processing going forward. You will look at some processes that could be/are centralised and use the RoP tool to document them. I have updated the Categories of Recipient to include Trust Central Team, and the Business function to include Management of the Trust as per your suggestion.

RoP as a document offline for use in gathering information - I will look into this.

I will speak to James about how processes might be linked and how you might want to link Software at a local level to an ROP at an org level.

I will shortly send the invites through for the schools we will visit in November and look forward to seeing you then. If you have any further queries, please do not hesitate to contact me.

Many thanks,

Tammy Buchanan
