Hi both,

Thank you for your time yesterday and for showing me around your school, it was an absolute pleasure. It is very clear that you have worked very hard to ensure your procedures are as data protection compliant as they can be. It was interesting because at the school I went to after you I was able to explain some of your procedures compared to theirs (didn't mention your school name), which was very helpful to them and helped them understand how things don't always need to be up on the wall or out on desks. With this in mind, I wondered if you would be OK with me writing a news article about some of the procedures at your school that would be helpful to others? I'm happy to write it and then have you check and approve as required as I think the work you have done would be so helpful to so many other schools. I also think your combination of deputy head and school business manager works very well in making it work, plus the fact that we regularly have meetings, which not all schools are able to do with us.

My app crashed quite a bit, so I have tried to update the Making the Rounds on the Knowledge Bank as best I can so apologise if I have made any mistakes - please feel free to go in an update/correct. Most observations were positive so I had very little to write in the feedback, just a few reminders really and some advice around the server (I will contact Orbis about this, but they will also request that you raise a ticket - if you raise a ticket then it will bypass your technician although you did mention that you will speak to Paul Harvey about it which you might prefer). The Word document contains the link to the DfE standards that I mentioned to you. I would also advise a privacy screen for the admin computer:

<https://dataprotection.education/courses-heading/making-the-rounds-log/item?id=99744>

If you click on the above link there will be some feedback in some of the areas which include links and information that you can send to staff if needed.

I have updated the DPO Feedback section with any additional advisories and changed the status to Action Required. You can then update the Actions Taken section with any changes you are able to make, and we can discuss at our next meeting. I have also attached a Word document with the Feedback all in one place for anything that might need a review or sharing with others.. All positive feedback is marked online in the Knowledge Bank. I have attached a Word version for you as well, but there isn't really anything to update staff with other than a reminder of where confidential waste goes and clear desk and not because I really found anything like that, but is something always to be reminding people of.

I am putting my booking link below so you can book the next online meeting for the Spring term. Please use the link below to check my availability which will allow you to book a date and time that is suitable for you:

If you have any questions, please do not hesitate to contact me.

Have a lovely weekend!

Many thanks,

Tammy Buchanan
